

SOUTHERN ADVENTIST UNIVERSITY  
SCHOOL OF NURSING

JOB DESCRIPTION

POSITION TITLE: CLINICAL INSTRUCTOR

REPORT TO: UNDERGRADUATE CLINICAL COORDINATOR, COURSE FACULTY

**JOB SUMMARY:** The clinical instructor (CI) is responsible for implementation of the School of Nursing's (SON ) philosophy, framework, outcomes, and curriculum in the clinical setting. The clinical instructor functions cooperatively with other team members as well as independently.

**RESPONSIBILITIES:** SON and to the agency in which clinical labs will be completed.

1. Provide proof of current Tennessee (or Georgia where appropriate) registered nurse license, CPR certification, TCPS orientation and immunizations.
2. Attend CI orientation sessions and meet with professors of course(s) for which CI assistance is being provided.
3. Keep abreast of SON policies and procedures related to best practice in the clinical setting. Attend elcass inservice sessions via review of information posted on CI Resource Central found at
4. Model professional and ethical behaviors while engaging with the students in the clinical setting (including professional dress with SAU photo ID card), or engaging with the students on and off campus.
5. While in the clinical setting, monitor students for their adherence to the Professional Standards, Attendance and Uniform policy as described in the Clinical Instructor Handbook.
6. Assume responsibility for assigned clinical content and be aware of changes in clinical or course content as specified by faculty.
7. Make student assignments according to the objectives of the course.
8. Guide the student in the clinical/skills/simulation setting with knowledge development, assessment, medication administration, skill performance, communication, documentation, use of technology, application of current evidence, interdisciplinary engagement, and professional and personal development appropriate to the student's level.
9. Plan and conduct pre- and post-clinical conferences that enhance application of theory to practice.
10. Deal with student questions about clinical experiences while encouraging progressive independence.
11. Evaluate student Clinical Assignments and provide feedback prior to student's next clinical experience.

12. Evaluate student clinical performance weekly and inform students of their progress.
13. Provide time for student counseling regarding clinical performance and written work.
14. Report weekly or bi-weekly to course lead faculty regarding student progress, clinical issues, and student concerns.
15. Consult with lead faculty regarding any student concerns.
16. Write weekly and final clinical evaluation summary for the permanent record of each student. Discuss weekly evaluation and final summary with student and obtain signature. Submit summary to course lead faculty at the conclusion of the clinical rotation. Return folder to student.
17. Maintain current personal nursing knowledge and skills appropriate to the SON teaching assignment.

**EDUCATION:** BS in Nursing. MSN desirable. Current licensure as a registered nurse in Tennessee or Georgia, as appropriate.

**QUALIFICATIONS AND EXPERIENCE:** Expertise in the appropriate clinical setting (i.e. Adult Health, Critical Care, Mental Health, Child Health, Childbearing Family). Ability to communicate and relate well to students, faculty, and agency staff.
